Two academic programs are housed in the Office of Academic Affairs.

- Geospatial and Remote Sensing Minor on the Starkville Campus
- Master's Program in Physician Assistant Studies on the Meridian Campus

Complete information on both programs is found in this section of the Graduate Catalog.

**Geospatial and Remote Sensing Minor**

**Director: Dr. John Rodgers**
Department of Geosciences
355 Lee Blvd, 108 Hilbun Hall
Mississippi State University, MS 39762
Telephone: 662-325-3915
E-mail: jcr100@msstate.edu
Mailstop: 9537

The Geospatial and Remote Sensing (GRS) minor is a cross-disciplinary program that allows students from any major to develop and enhance their geospatial skills. Students will learn important theoretical concepts associated with geographic information systems and remote sensing sciences, and they will acquire the ability to use these methods to solve spatial problems. Graduate students must complete a minimum of 12 hours of GRS coursework at Mississippi State University with a grade of C or higher from a list of approved courses. A 3.00 GPA is required. An MSU Graduate Faculty member with geospatial expertise must serve as minor professor on the student’s graduate committee.

A student who chooses this minor must have the approval of his or her graduate committee and graduate coordinator in the major field. The minor coursework is then included on the student’s program of study and is approved by the minor graduate coordinator.
GIS requirement: Choose one of the following.  
- FO 6471 GIS for Natural Resource Management Lab
- and
- FO 6472 GIS for Natural Resource Management
- GR 6303 Principles of GIS
- WFA 6253 Application of Spatial Technologies to Wildlife and Fisheries Management

Remote Sensing: Choose one of the following.  
- FO 6453 Remote Sensing Applications
- GR 6333 Remote Sensing of the Physical Environment
- ECE 6423 Introduction to Remote Sensing Technologies
  or ABE/PSS 6483 Introduction to Remote Sensing Technologies

Advanced Geospatial Coursework: Choose one of the following.  
- FO 6313 Spatial Technologies in Natural Resources Management
- FO 8313 Spatial Statistics for Natural Resources
- FO 8353 Ecological Modeling in Natural Resources
- FO 8173 Advanced Spatial Technologies
- GR 6313 Advanced GIS
- GR 6343 Advanced Remote Sensing in Geosciences
- GR 8303 Advanced Geodatabase Systems

Geospatial Applications: Choose one of the following. Courses must be different from the ones taken from the above categories. A course may not be used to satisfy more than one requirement.  
- ECE 6413 Digital Signal Processing
- ECE 8401 Current Topics in Remote Sensing
- ECE 8473 Digital Image Processing
- GR 6323 Cartographic Sciences
- GR 6353 Geodatabase Design
- GR 6363 Geographic Information Systems Programming
- GR 6411 Remote Sensing Seminar
  or PSS/ECE/FO 6411 Remote Sensing Seminar
- PSS 6373 Geospatial Agronomic Management

The following courses listed in the categories above can also meet this requirement if not used in another category.  
- FO 8173 Advanced Spatial Technologies
- FO 8313 Spatial Statistics for Natural Resources
- FO 8353 Ecological Modeling in Natural Resources
- GR 6313 Advanced GIS
- GR 6343 Advanced Remote Sensing
- ST 4313 Spatial Statistics

Total Hours: 12
